The ITSS Standard-Specification – Interface 1 defines an ITSS Manufacturer ID, which is used as a prefix for other IDs within the standard to uniquely identify telematics devices and transport devices. This document lists all officially approved ITSS Manufacturer IDs and describes the process by which 3rd parties may apply for their own ITSS Manufacturer ID.

## 1. Construction of the ITSS Manufacturer ID

The ITSS Manufacturer ID consists of exactly 5 digits of printable ASCII codes from '0' to '9' and from 'A' to 'Z'. Lower case letters or special characters are not allowed. The ITSS Manufacturer ID must be unique, so a once assigned ITSS Manufacturer ID can never be assigned a second time.

## 2. List of assigned ITSS Manufacturer IDs (as of May 2020)

Amsted Digital Solutions, SAS: ADS01, (deprecated: IONX1)

ASTO Telematics GmbH: ASTOT

Bosch Engineering GmbH: BOSCH

Cargomon Systems GmbH: CGMON

COGNID Telematik GmbH: COGND

DOT Telematik und Systemtechnik GmbH: DOTMK

Dresden Elektronik Ingenieurtechnik GmbH: DDEIT

EPHY-MESS GmbH: EPHYM

EverySens: EVRYS

FELA Deutschland GmbH: FELAD

Franz Kaminski Waggonbau GmbH: FKAMW

Funkwerk-IoT GmbH: FUNKW

ibes AG (SERCAM(R) Telematics): SERCM

Intermodal Telematics BV: IMTBV

INTREX Telematics Systems (Pty)Ltd: INTRX

LEVEL, s.r.o: LEVEL

Nexxiot AG: NXIOT

Ovinto: VINTO

Perpetuum Ltd: PRPTM

# The ITSS Manufacturer ID

---

Savvy Telematic Systems AG: SAVVY

Siemens Mobility GmbH: SMENS

Traxens: TRXNS

Ubidata: UBIDT

Update Plus: UPDPL

Wabtec Corporation: WABTC

## 3. Applying for an ITSS Manufacturer ID

In order to get an ITSS Manufacturer ID you need to send an E-Mail to Mr Hagenlocher [Hagenlocher@hwh-transport.de](mailto:Hagenlocher@hwh-transport.de) or Mr. Ludwig [mike.ludwig@dresden-elektronik.de](mailto:mike.ludwig@dresden-elektronik.de). In this email subject you must state "Application for an ITSS Manufacturer ID". In the content of the E-Mail you must state for which company or organization you are applying. You also must provide the name and address of a responsible person within this company or organization with whom the ITSS may correspond concerning this application. At last you may state a proposal for the 5 letter code of your wanted ITSS Manufacturer ID, which must follow the above mentioned construction rules. It cannot be guaranteed that the proposed 5 letter code will be accepted.

Any application for an ITSS Manufacturer ID will be processed in the next ITSS practice group meeting. Newly assigned ITSS Manufacturer IDs will be added to the above stated list, which concludes the successful application process. If questions need to be discussed, the ITSS will use the given contact address from the application E-Mail.
